

## **Morgan Wright**

Morgan is an internationally recognized expert on cybersecurity strategy, cyberterrorism, identity theft and privacy. His landmark testimony before Congress on Healthcare.gov changed how the government collected personally identifiable information. He has made hundreds of appearances on national news, radio, print and web, and has spoken to audiences around the world. Previously Morgan was a Senior Advisor in the US State Department Antiterrorism Assistance Program and Senior Law Enforcement Advisor for the 2012 Republican National Convention. In addition to 18 years in state and local law enforcement, Morgan has developed solutions in defense, justice and intelligence for the largest technology companies in the world.

A highly seasoned interviewer and moderator, Morgan has helped the largest companies in the world shape and change markets through effective, engaging interviews with senior executives and newsmakers in the complex world of cybersecurity and cyberterrorism. Whether it's moderating a product launch panel discussion with the world's most famous hacker, or interviewing the CIO of the world's largest security company, Morgan delivers with compelling questions and insight honed by 30 years of expertise. This includes over 400 appearances on national news shows where's he's been interviewed as well by the best in the business. Discussions and interviews goals are always to inspire, inform and entertain with just the right amount of humor and wit.
