

## Susan Nedza MD, MBA FACEP

Dr. Susan Nedza serves as Senior Vice President of Clinical Outcomes Management for MPA, Inc. MPA is an analytic health care consultancy that specializes in improving outcomes for patients, physicians, providers, and payers. Dr. Nedza leads the firm's work in the areas of clinical quality assessment and improvement, bundled payments, and comparative effectiveness.

Dr. Nedza's broad experience as a board-certified emergency medicine specialist, a Chief Medical Officer at the Centers for Medicare and Medicaid Services (CMS), Senior Executive at the American Medical Association (AMA), and as a Health Information Technology Executive has given her a unique vantage point of the confluence of clinical care, health care delivery systems, clinical informatics and health care policy.

Prior to joining MPA, Dr. Nedza served as the Chief Medical Officer at AIM Specialty Health, a subsidiary of Anthem, where she led the development and deployment of evidence-based clinical algorithms that were utilized to manage appropriate utilization of advanced imaging, cardiology, sleep management and oncology services for over 30 health plans.

Dr. Nedza is an Adjunct Assistant Professor at the Feinberg School of Medicine of Northwestern University. She has served as invited faculty at the J.L. Kellogg Graduate School of Management, the master's program for Healthcare Quality and Patient Safety, and in the Department of Emergency Medicine. Her research includes completed work on behalf of the Robert Wood Johnson Foundation studying the role professional organizations play in helping support physician adoption of health information technology.

Dr. Nedza has served as a member of panels at the Institute of Medicine, the Agency for Healthcare Research and Quality, The Joint Commission and participated in the S&I framework activities at the Office of the National Coordinator. She has given numerous national and international lectures on health policy and quality and has published a number of peer-reviewed articles as well as authored textbook chapters in the area of quality and patient safety.

Dr. Nedza is board-certified in emergency medicine and clinical informatics. She received her Bachelor of Science in Chemistry from Gannon University and her doctorate from Loyola-Stritch School of Medicine. She also completed the Executive Master's Program at the J.L. Kellogg Graduate School of Management at Northwestern University.
